EXPERIENCE

Sourcesoft Solutions Pvt Ltd.

Nov 2016 – Present

Frontend Designer

Noida, IN

- Proficient in front-end web development, specializing in **HTML5**, **CSS3**, **JavaScript**, and **Bootstrap**, with intermediate expertise in **React JS**. Skilled in converting PSD to responsive HTML and transforming HTML into React JS applications, ensuring responsiveness across devices
- Experienced in debugging design issues, offering solutions, and providing support to design teams. Expertise in using **Adobe Dreamweaver CS 6** for creating code templates and developing rich internet applications with **JQuery** and **JavaScript**.
- Proven track record in designing, revamping, and maintaining corporate websites, emphasizing fluid and responsive layouts. Adept at developing interactive, responsive, and dynamic websites that enhance user experience and engagement.
- Comprehensive experience in using Bootstrap and developing mobile-compatible architectures, ensuring optimal performance and accessibility on various devices.
- Versatile developer with experience in e-commerce platforms like **Shopify**, **WordPress**, and **Magento**, and proficient in modern frameworks including Angular and React JS, delivering robust and scalable web solutions.

PROJECTS

Exuber [exuber.ai]

- Transformed PSD layouts into interactive web pages using HTML5, Bootstrap, CSS, and JavaScript, ensuring high-fidelity translations from design to code
- Implemented responsive design principles to ensure **cross-browser compatibility** and optimal viewing experience on various devices
- **Converted static HTML structures into dynamic React JS components**, enhancing website interactivity and user engagement.
- Designed and developed HTML-based reporting and print-friendly layouts, focusing on readability and ease of use
- Utilized a diverse tech stack, including HTML, CSS, JavaScript, React JS, **Photoshop**, and **Adobe XD**, to deliver a comprehensive and robust web solution

TurnkeyTix [turnkeytix.com]

- Executed seamless conversion of **PSD designs** to functional web interfaces using HTML5, Bootstrap, CSS, and JavaScript for TurnKeyTix, an innovative event ticketing platform
- Spearheaded the development of responsive web designs, ensuring seamless functionality and visual consistency across various browsers and devices.
- Translated static HTML layouts into dynamic, React JS-powered user interfaces, contributing to the platform's interactive and user-friendly nature.
- Designed and implemented HTML-based solutions for report generation and print layouts, focusing on clarity and user-centric design
- Employed a sophisticated technology suite including HTML, CSS, JavaScript, React JS, Photoshop, Adobe XD, and **Figma**, to deliver a comprehensive online ticketing solution

Decode Homes [decode-home.com]

- Led the transformation of PSD designs into high-quality, functional web pages utilizing HTML5, Bootstrap, CSS, and JavaScript for Decode Home, a platform streamlining home maintenance and property management
- Pioneered the implementation of **responsive web design** strategies, guaranteeing a consistent and optimal user experience across different browsers and devices
- Expertly converted conventional HTML structures into React JS components, enhancing the interactivity and efficiency of the platform
- Focused on crafting user-centric interfaces, ensuring ease of navigation and accessibility for Decode Home's diverse user base
- Leveraged a robust set of technologies including HTML, CSS, React JS, and Adobe XD, to create a seamless and intuitive online property management solution

Al Mabrook [demo.almabrook.io]

- Played a pivotal role in designing the user interface for Al-Mabrook, Canada's first Shariah-compliant blockchain platform, focusing on secure and ethical crowdfunding for Muslims
- Implemented responsive web design techniques, ensuring the platform's accessibility and optimal user experience across various devices and browsers
- Leveraged HTML, CSS, JavaScript, and Bootstrap to create an intuitive and user-friendly interface, in alignment with Islamic financial principles
- Utilized tools like **Adobe XD and Figma to craft and refine the platform's visual design**, emphasizing clarity and ease of use for diverse users.
- Collaborated closely with the Shariah board to ensure that all design elements adhered to Islamic financial guidelines, integrating smart contract functionalities for enhanced security and trustworthiness

WorldStartech [worldstartech.com]

- Orchestrated the conversion of PSD designs into engaging and functional web pages using HTML5, Bootstrap, CSS, and JavaScript for World Star Tech, a leader in laser diode technology
- Championed responsive design initiatives, ensuring seamless functionality and visual integrity across various browsers and device types
- Skillfully migrated HTML structures to WordPress, enabling content manageability and scalability for the World Star Tech website
- Ensured web designs were user-friendly and aesthetically pleasing, aligning with the technical and innovative nature of the laser diode industry.
- Utilized a combination of HTML, CSS, WordPress, and Photoshop to create a dynamic online presence for a high-tech laser diode distributor and designer

Grey Matterz [greymatterz.com]

- Executed the translation of PSD designs into high-quality web pages using HTML5, Bootstrap, CSS, and JavaScript, for Grey MatterZ, a premier US-based development and media solutions provider
- Ensured top-notch responsive design for the website, achieving optimal user experience across a variety of devices and browsers
- Skillfully converted HTML layouts into WordPress themes, enhancing the site's content management capabilities and user interactivity
- Focused on creating visually appealing and user-centric web designs, reflecting the innovative and dynamic nature of Grey MatterZ's services
- Applied a diverse technology toolkit, including HTML, CSS, WordPress, and Photoshop, to develop a robust and engaging online platform for multimedia solutions
